HYGIENE IN INDUSTRY – SAFE, RELIABLE, PROFESSIONAL

In many industrial sectors, hygiene is much more than just a standard – it is a fundamental prerequisite for product quality, process reliability and employee protection. A well-thought-out hygiene concept is crucial, especially when working with delicate materials, sensitive products or substances that are relevant to health.

A key element is the right protective equipment. Disposable clothing, gloves, hoods, face masks and overshoes help to effectively minimise contamination risks and ensure hygienic work processes in the long term. They prevent the transfer of germs, particles or other foreign substances – both to products and between people and work areas.

With hygiene and protection solutions from NITRAS, you can rely on tested quality, a secure fit, high material standards and tried-and-tested functionality. This allows you to create not only a clean but also a safe and compliant working environment – today and tomorrow.

YOUR EXPERTS FOR MEDICAL AND HYGIENE ARTICLES - SINCE 2015

This approach has enabled us to develop into a renowned manufacturer brand. From the outset, we have built and consolidated our global partnerships on the cornerstones of reliability, flexibility and trust. Our daily activities are characterised by a wide range of products, short delivery times, high quality assurance and a market-driven price-performance ratio. As experts in disposable and reusable products, we also ensure that our NITRAS articles and all the private labels we manufacture are always state-of-the-art and fully marketable. We have internalised these values in our NITRAS family and continue this important tradition to this day. Our personal, customer- and solution-oriented approach combines the above aspects to create a unique combination that serves as the basis for steady growth. Side by side with our partners.

Our goal is to protect people's health and the environment and to make life easier. We work towards this every day with great reliability, flexibility and expertise. We strive to offer a full range of disposable and reusable products for professional medical and non-medical applications, which are always available to everyone and can be delivered to the desired location within a very short time. Trends, designs, innovations and the latest technology are incorporated into product development, as is a market-driven price-performance ratio. Because when you purchase a NITRAS product, we want to make a promise to you. A promise regarding properties and quality that brings our brand value to life and thus develops comprehensive and distinctive brand awareness. In addition, we are determined to offer continuously optimised, customer-specific and individual solutions that meet our high standards.

In our NITRAS family, we are committed to continuous, cooperative and healthy growth. In this context, economic, ecological and social aspects must be taken into account and implemented along the entire value chain. Based on our personalised advice and high level of commitment, we aim to develop a successful and future-oriented business policy that serves the well-being of all people and the environment.
